**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Vidovic.

The Vidovic reference discloses a toothbrush (Figure 2) comprising a head with a head channel 20, bristles 28, orifices (within pad 24), a handle with a handle channel 22, a toothpaste tube 24, a retaining ring 15, and a cover 16 with an opening rim and and bosses (see bosses which engage retaining ring 15 in Figure 2).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vidovic in view of Vizsolanyi.

The Vidovic reference discloses a toothbrush as discussed supra, but remains silent as to the colors of the toothbrush or the material from which the

toothbrush is made. However, attention is directed to the Nelson reference, which discloses a similar toothbrush which is available in different colors to assist in brush identification and which is also made from plastic (see col. 2, lines 60-67). It would have been obvious to one of ordinary skill in the art at the time the invention was made to make the Vidovic toothbrush available in different colors in view of Vizsolyi to assist in brush identification and to make the Vidovic toothbrush from plastic in view of Vizsolyi since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In *Re Leshin*, 125 USPQ 416.

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Vidovic in view of Vizsolyi as applied to claim 3 above, and further in view of Catanzaro.

The Vidovic reference discloses a toothbrush as discussed supra, but does not disclose that the cover is supplied with a cartoon character. However, attention is directed to the Catanzaro reference, which discloses a similar toothbrush having a cover supplied with a cartoon character (see Figure 1), for the amusement of children. It would have been obvious to one of ordinary skill in the art at the time the invention was made to supply the cover of the modified Vidovic toothbrush with a cartoon character in view of Catanzaro for the amusement of children.
